A content plan for Sandton

Making Sandton the name Morden thinks of first for property

Prepared for Beenish Hanif by Earl Duncan
Wednesday 11 November 2026, Crown Lane, Morden

s4digital

What you told us

1. You want Sandton to be the name people in Morden think of first when property comes up, and you want to be seen as a local leader.

2. Content so far has happened when someone had half a day spare, and the prep landed on you: printing scripts and getting ready took time out of your day.

3. What you need now is structure: a plan you can see, a team that does the prep for you, and content that sounds like you.

The three posts with the most likes all have you in them.

s4digital

Outside Instagram

sandton.co.uk, 5 November 2026

Your homepage opens on Tower Bridge. The first words are about the whole of the UK, and Morden isn't there.

The blog is good and local. Posts like Buying a Home in Morden in 2027 are the right topics. None of them has a video yet.

No YouTube or TikTok. That's where people go looking for area guides before they move.

Three names in use. Sandton Real Estate, Sandton Estate Agents and Sandton Chartered Surveyors.

Reviews are thin. We found very few on Google or the portals. A steady run of new ones from happy clients would set the tone quickly.

s4digital

What's already working is you

You come across calm, clear and unhurried.

You answer questions the way you would across the desk, at a natural pace of about 140 words a minute. You don't oversell, and with people trusting you with the biggest thing they own, that matters.

So the content we'd make keeps your pace: short, steady answers from a chartered surveyor who knows Morden, filmed so they look and sound as good as the advice.

You're also posting every two or three days. Consistency is the hardest habit to build, and you already have it.

s4digital

Six things we'd change

Two of your current reels

1. **Sound.** Outdoor phone audio picks up wind and traffic. Clip-on mics and a quieter spot fix it.
2. **Framing.** You're small in a wide shot, in the same spot each time. Closer shots and more places, the shop included.
3. **Show it.** When you mention Cannon Hill Common or the regeneration, the viewer should see it.
4. **Lead with the answer.** "One-bed flats in SM4 are going for about £245,000" stops a scroll faster than the question.
5. **Real Morden.** Swap stock clips and AI images for your streets, your shop and your team.
6. **One voice.** Captions in your own words and Sandton's purple, under one name everywhere.

s4digital

Who else is speaking for Morden

Agent	Instagram	What we saw
Sandton	1,285 followers	The biggest following of the local agents we checked
Goodfellows, Morden branch	571 followers, 1,120 posts	Now putting agents on camera, Lower Morden included
KFH, which now runs Eddison White	9,543 followers	A London-wide brand. One video in its last 12 posts.
Drury & Cole, in Morden since 1962	None linked from their site	Leans on its long history
Turners Property	None found	A family firm with very few public reviews

None of them has a chartered surveyor on camera explaining the market. That's yours to own.

s4digital

Already on camera near you

The agents around you have started.

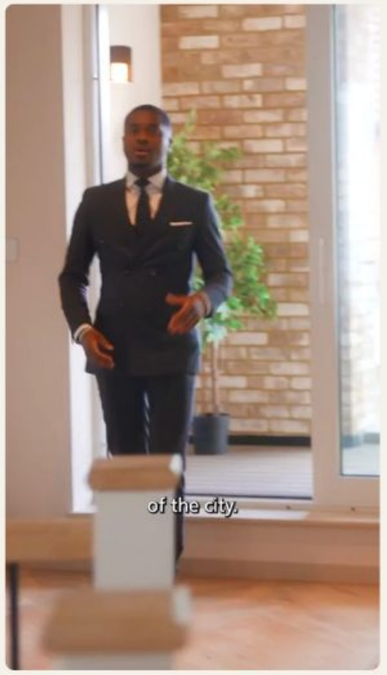

Goodfellows now put their agents on camera, Lower Morden included. KFH's area guides get far more likes than their listings.

But all three are tours and lifestyle. Nobody is explaining the market, and none of them is a chartered surveyor.

That's the gap Sandton fills.

Goodfellows, Lower Morden. An agent's tour of Kingsbridge Road, 14 Oct. 12 likes.

KFH, Wimbledon. A guess-the-area game. 73 likes, against 3 for their listings.

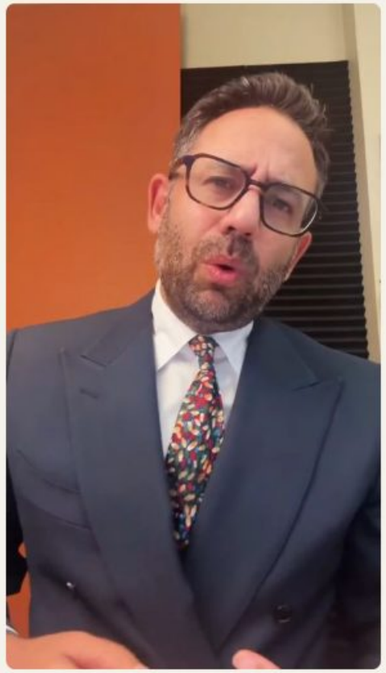

KFH, Notting Hill. An agent at a local ice cream shop. 79 likes.

s4digital

What we'd make: your expertise

1 Ask the surveyor

Shop questions answered by you in under a minute: surveys, damp, offers, pricing.

Already working for Daniel Daggers. Calm advice for young buyers, straight to camera. 395 likes.

2 The SM4 market minute

A monthly update on what's sold, what's let and what £250,000 buys in Morden right now.

Already working for Ari Reid. Explains the new first-time buyer scheme the week it lands. 1,051 likes in a day.

3 The landlord desk

Renters' Rights Act, EPC rules, HMOs and block management, from someone who manages them.

Already working for Property Hub. What landlords missed in the Renters' Rights Act. 41 comments, and every question is a lead.

s4digital

What we'd make: your patch

4 Morden, street by street

Lower Morden, Morden Park, Merton Park, St Helier and the regeneration. What it's like to live there and what homes cost.

Already working for Daniel Daggers. Opens on the street's story: Bob Marley lived next door. 1,030 likes.

5 Your listings, by you

Film tours of your listings, presented by you, for Rightmove, your website and social.

Already working for Tanya Baker, South East London. Presents her own Nunhead listing, baby in tow. 2,297 likes. Listings with video get 17.6% more views.

6 Morden people

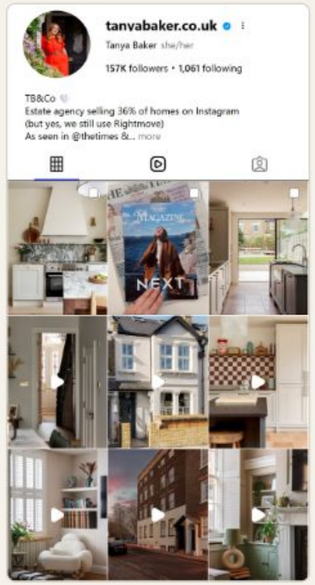

Local businesses, schools and events, so Sandton is part of the area's story, not just its market.

Already working for Hortons. Sells the town before the house, starting with a local shop. 111 likes, their best recent post.

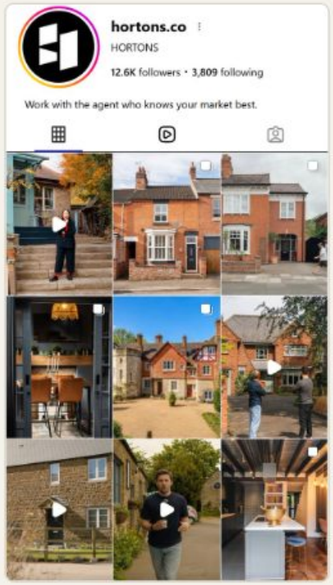

s4digital

Three accounts to aim for

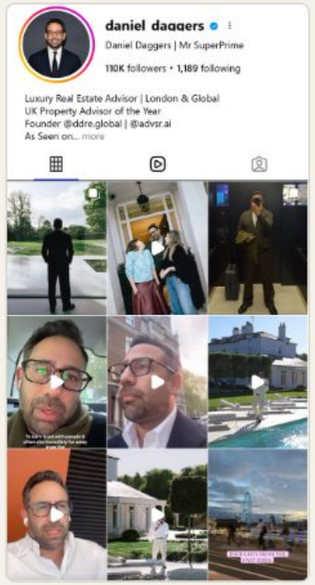

Tanya Baker, 157K

- An independent agent whose bio leads with one result: 36% of their homes sell through Instagram.
- Every home shot the same warm, styled way, so the grid looks like one brand.

Hortons, 12.6K

- A one-line promise: "Work with the agent who knows your market best."
- Agents on camera, out on the street in front of the homes.

Daniel Daggers, 110K

- His face is the brand: most posts are him talking straight to camera.
- Advice and opinions, not listings, with recurring series like "Thoughts from the past week".

For Sandton: you on camera like Daggers, Morden first like Hortons, and homes shot like Tanya Baker's.

s4digital

How each month runs

1. **Planning call, week one.** Thirty minutes to agree the month's topics and shoot dates.
2. **We do the prep.** Scripts land on your phone five days ahead. On the day they run on our teleprompter, so nothing to print.
3. **Shoot.** We arrive 30 minutes early and set up at the shop or on location. You're on camera for about two hours.
4. **Edits to approve.** Within five working days, in a shared calendar you can check on your phone.
5. **Posted for you.** Scheduled across Instagram, Facebook, LinkedIn, TikTok, YouTube and Google.
6. **Monthly review.** A one-page report on what worked and what we'll change next month.

s4digital

What November would look like

Needs you · Our work · Goes live

Mon	Tue	Wed	Thu	Fri
2 Planning call, 30 min	3	4 Scripts for content day 1 sent to your phone	5	6
9 Content day 1 at Crown Lane, 2 hours	10 Editing	11 Editing	12 Approve 5 videos on your phone	13 Changes made, all 5 scheduled
16 Video 1	17	18 Video 2 Scripts for content day 2	19	20 Video 3
23 Content day 2 around Morden, 2 hours Video 4	24 Editing	25 Editing Video 5	26 Approve 5 videos and the market update	27 All scheduled SM4 market update
30 Video 6 Review call, 30 min	1 Dec	2 Dec Video 7	3 Dec	4 Dec Video 8

Under six hours of your time in the month.

Two content days, a planning call, two rounds of approvals on your phone and a review call. Scripts, filming, editing, captions and scheduling are on us.

Each content day takes about a week to edit, approve and schedule, then posts three times a week. Content day 2 carries on into December, so there's never a gap.

Shown on the twice-a-month plan. Once a month runs the same way, with one content day and five videos.

s4digital

About s4digital

We're a South London content and film studio. We plan, film, edit and publish for businesses that want to be known.

Monthly content. Plug In Stations, Super Efficient and Trade Electrical Distributors, from shoots to scheduling to ads.

Brand films. Easee, char.gy, NexBlue and Smart Home Charge.

Documentaries. La Fromagerie, Carreducker, Signwriting Jack, and Manxinha, a feature documentary in production.

s4digital

s4digital

What's different about working with us

Compared with other agencies

Filmmakers first. We come from documentary, so we build your content around what you know, not the trend of the week.

One person accountable. You deal with Earl from the planning call to the monthly review, with no account managers in between.

Made to sell, not just to post. The same videos can run as ads, which is how Trade Electrical Distributors turned content into sales.

Compared with what you've had before

Dates booked a month ahead, and kept. You're a scheduled client, not a gap in someone's week.

We do the prep. We write the scripts and load them on our teleprompter. Nothing for you to print or learn.

A professional crew. Our own cameras, lights and clip-on mics, set up before you sit down.

A written agreement. Clear deliverables and a notice period, so you always know where you stand.

s4digital

Homes, and the people in them

Nimrod Road, Tooting. A Victorian house renovated in eight weeks with a baby on the way, told by the couple who bought it. 5 min 32.

Barry Road, East Dulwich. A full renovation explained by the homeowner once the family had moved back in. 4 min 32.

A block project. Works explained for residents, freeholders and managing agents. 1 min 28.

Each one is told by the people who live there or look after the building, not by the builder. That's how we'd film Sandton's homes, landlords and blocks.

In their own words

“Before S4 came along, we had zero social media presence. That's given us probably a million pounds worth of revenue.”

Alex, Trade Electrical Distributors. We filmed the content and ran the ads. 1 min 9.

“You're efficient, you're reliable, you work well not just with me, but with the rest of the team.”

Andy, Plug In Stations. Monthly content, social, blogs and SEO. 2 min 2.

s4digital

Content that works as ads

Trade Electrical Distributors. A brand film we shot and edited for their campaigns. 55 sec.

We filmed it, then put it in front of the right people.

For TED we made the content and ran the ads behind it, so the same shoot fed both their feed and their campaigns.

For Sandton, that means your strongest videos shown to SM4 homeowners thinking about selling, and to landlords looking for someone to manage their property.

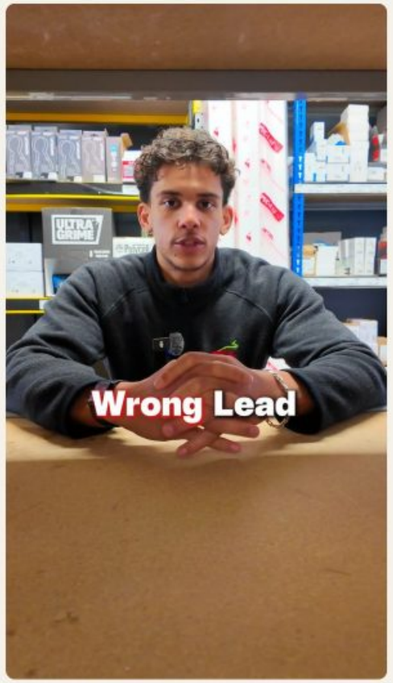

Ads from £250 + VAT a month, plus your spend

s4digital

The ads behind it

EV installers.
Stock problems. 25 sec.

EV installers.
Wrong orders. 24 sec.

BMS contractors.
Pricing and margins. 25 sec.

BMS contractors.
Squeezed margins. 21 sec.

Each ad tackles one problem the customer has.

For TED we filmed Aaron on camera at their warehouse, taking on the four problems their trade customers kept running into: pricing, stock, wrong orders and squeezed margins. Each one became its own ad, cut for EV installers and for BMS contractors.

For Sandton it's the same idea, with you answering what sellers and landlords in SM4 are actually worried about.

s4digital

How the ads work

1

We film it

Your content day gives us the videos, like a market update or a local tip. No extra filming for ads.

2

We pick the winner

The video that does best on your page becomes the ad, because people have already shown they like it.

3

SM4 sees it

Facebook and Instagram show it to homeowners and landlords within a few miles of Crown Lane.

4

They get in touch

A "Book a valuation" button sends their details straight to you. Each month we report what came in.

You pay s4digital

£250 + VAT a month

Setup, targeting, testing which video works best, and the monthly report.

You pay Facebook and Instagram directly

We suggest £10 a day

About £300 a month, on your own card. Pause or change it any time.

s4digital

When a story deserves more time

La Fromagerie. Thirty three years of cheese, starting in a garden shed. 11 min.

Documentary is where our work started.

The same approach could tell Sandton's story: a chartered surveyor and mum of three who built a property business on Crown Lane.

A short film like that lives on your website and About page, and gets cut into pieces for social.

Short brand film from £5,000 + VAT

s4digital

What it costs

Once a month

£950

+ VAT a month

- One half-day shoot a month
- 5 short videos and 10 photos
- Scripts written by us and run on our teleprompter
- Captions in your voice
- Scheduled on Instagram, Facebook, LinkedIn and TikTok
- Monthly report

Twice a month

£1,750

+ VAT a month

- Two half-day shoots a month
- 10 short videos and 20 photos
- A monthly SM4 market update for YouTube and your website
- Film tours for up to two listings
- Client video reviews
- Scheduled on six channels, Google included
- Monthly review call

Add paid ads

from £250

+ VAT a month, on top of either plan

- Your best videos boosted to SM4 homeowners and landlords
- Set up, managed and reported monthly
- Ad spend paid by you straight to Meta, we suggest £10 a day

Independent agent rates, held for your first 12 months. Three-month minimum, then 30 days' notice. Kit, scripts, editing and local travel included.

s4digital

Next steps

1. Agree a plan today
2. Planning call next week to set the first topics
3. First shoot in early December at Crown Lane
4. First videos live within a week of the shoot
5. Review together at 90 days
